With the specific listening skills offered in AMA’s communication seminars, you can become an excellent listener in any circumstance.

In this booklet, you’ll find seminars that can help you speak comfortably and professionally in virtually any business situation.

WRITE with precision, clarity and proper grammar. Writing well can help you accomplish anything from drafting a winning proposal to persuading a customer to buy from you. From business writing to technical writing, AMA has everything you need to become a standout writer.

Doing It All: How to Stay Focused and Engaged

Maintaining focus and staying engaged can be a major hurdle. With so many simultaneous demands on your time, sustaining focused energy is no longer an option. It’s a “must have” skill. You will learn tools that help you get into productive flow and how to get back on track. You will leave with tools that help you make the best of your innate strengths, mitigate your challenges, and stay focused.

NEW! How to Turn Data into Compelling Visual Presentations

Visually and clearly present data and the message it represents.

When you have important data to present to others—information that summarizes an analysis you’ve done, or some other significant message that conveys data—your story is only as powerful as your presentation.

Data visualization and infographics are extremely powerful tools for presenting data in a clear, meaningful and compelling way. The best visualizations can capture an audience’s attention and provide instant clarity. This course will give you an overview of data visualization and infographics as well as tools for presenting your data and message in the most effective manner possible. You’ll learn how to choose just the right form for presenting your content, rather than just picking a general template that does not do justice to your work—and achieve greater credibility and professionalism through your presentations.

Benefits of Attending

• Analyze data that you receive in multiple formats and explain it to others
• Present information in a clear and meaningful manner to different types of audiences
• Recognize the best usage of different forms of data visualization and infographics

• Understanding static, interactive, and motion-graphic forms of data visualization
• Strategies for distributing and promoting your information using social media

TOPICS COVERED
• You’re the presentation (not the PowerPoint slides)
• Keeping the presentation engaging and interactive
• Choosing a focus—informative or persuasive?
• How to handle legal matter, jargon and other “required information”

Cultivate effectiveness, lead with excellence and transform your team for breakthrough results.

National surveys* of thousands of employees disclosed that while many people work hard, they are worried about their lack of effectiveness.

Survey results indicate:
1. Less than 50% of your team’s time is spent on the company’s most important objectives
2. Only 14% of employees feel they are contributing to company success
3. Less than half of your team know company’s goals

*Results of xQ Surveys conducted by Harris Interactive

The problems are not limited to one industry, one geographic location, one economic group or even one age group. They are common to all. Workers have too many assigned tasks and too many competing priorities. People can’t identify key goals and, therefore, can’t deliver excellent results. Individuals, even entire departments, lack open communication. Crises are often reacted to with fast, less-than-effective decisions. The good news is that changing ineffective behaviors to effective behaviors will benefit everyone in your organization. The 7 Habits® can help you to not only better manage yourself, but learn to lead others and unleash team potential. Attend this powerful 2-day workshop and discover the same principles that have led the world’s foremost business leaders to the professional and personal success they dreamed of.

- Enhance your leadership abilities and reach your full potential
- Judge the goals your efforts should be focused on using daily and weekly planning
- Communicate effectively and raise the levels of trust and fulfillment within your team
- Build better relationships and become more effective as a manager

**TOPICS COVERED**
- **Habit 1: Be Proactive**—Become a resourceful, innovative manager who quickly accomplishes goals and motivates team members to get things done
- **Habit 2: Begin with the End in Mind**—Have a clear vision of what you want your contribution as a manager to be and shape your own future
