

Your employee is interested in learning new skills with AMA. Beyond helping you both achieve your goals, here's why that's an excellent idea.

AMA Seminars offer your employee:

- **Extensive practice in a supportive environment.** You really can't learn new skills from an app. You need to experience it, practice it, and get personal attention to the details that make a difference. There is simply no substitute for learning by doing.
- **Feedback from experts.** Our instructors are not professors—they are practitioners in the field, focused on what works now in the real world. Participants agree instructors make a difference and have rated our faculty 4.83 out of 5 stars. What's more, your employee will be learning alongside peers from other organizations gaining insight and knowledge from other industries and expanding their professional network.
- **Tools and techniques designed to improve performance.** Our courses are instructionally designed to make a difference in performance, which is why 99% of participants report they are using what they learned back on the job after taking one of our courses.
- **An Experience.** Yes, we know two or three days seems like a lot. But dedicating that time to truly master new skills is worth the time and money. And we're not just saying that—our customers agree: 98% of participants would come back for another course.

Still feel like you can't spare your employee for a training session?
Take a look at [our live online courses](#) which minimize time away from work.

Either way, remember that we don't lecture—we accelerate performance.

CBAP®/CCBA™ Certification Prep Boot Camp

Take the CBAP®/CCBA™ exam after attending this course and pass—guaranteed*!

Business analysis is achieving worldwide recognition as a profession in its own right. The CBAP® (Certified Business Analysis Professional™) and CCBA™ (Certification of Competency in Business Analysis™) designations are marks of distinction for intermediate and advanced practitioners, recognizing their demonstrated professional level of competence in BA principles and practices.

By taking this course, you can be among the first to qualify for and achieve CBAP®/CCBA™ certification. Learn how to analyze and document your business analysis credentials and experience, submit a successful application for the CBAP®/CCBA™, and effectively prepare for the exam. This Boot Camp will give you frequent opportunities to practice strategies and tactics proven to get your application accepted, prepare you to write for either exam, and above all, greatly increase your ability to pass the exam the very first time.

How You Will Benefit

- Understand how CBAP®/CCBA™ certification can benefit you in the short and long term
- Become familiar with the requirements for both certifications and make progress toward completing them
- Gain useful tools for documenting applicable experience and education
- Learn, review, and master the material covered on the CBAP® and CCBA™ exams
- Increase your preparedness for the exam through drills and practice exams
- Develop a personalized plan to prepare for your exam

What You Will Cover

- Understanding what the IIBA® International Institute of Business Analysis and its certifications are all about
- Exploring the nature and construction of the application and examination
- Learning what knowledge from the BABOK® and other sources comprise the CBAP® and CCBA™ certifications
- Successfully submitting a CBAP® or CCBA™ application
- Practice answering representative exam questions in a simulated test environment
- Discovering tips and tricks that have helped others succeed with the

application and exam

- Developing a practical plan for exam preparation that is customized to your needs
