

Your employee is interested in learning new skills with AMA. Beyond helping you both achieve your goals, here's why that's an excellent idea.

AMA Seminars offer your employee:

- **Extensive practice in a supportive environment.** You really can't learn new skills from an app. You need to experience it, practice it, and get personal attention to the details that make a difference. There is simply no substitute for learning by doing.
- **Feedback from experts.** Our instructors are not professors—they are practitioners in the field, focused on what works now in the real world. Participants agree instructors make a difference and have rated our faculty 4.83 out of 5 stars. What's more, your employee will be learning alongside peers from other organizations gaining insight and knowledge from other industries and expanding their professional network.
- **Tools and techniques designed to improve performance.** Our courses are instructionally designed to make a difference in performance, which is why 99% of participants report they are using what they learned back on the job after taking one of our courses.
- **An Experience.** Yes, we know two or three days seems like a lot. But dedicating that time to truly master new skills is worth the time and money. And we're not just saying that—our customers agree: 98% of participants would come back for another course.

Expanding Your Influence: Understanding the Psychology of Persuasion

How can one person get someone to do something with ease, while it's an uphill battle for someone else?

Bringing about the reaction you want from others and expanding your influence require insights that go beyond the actual process of influencing—and into the psychology of what truly prompts us to say yes or no.

This 2-day course explores these psychological triggers, plus how this knowledge may be used not just for compliance but for mutually desirable outcomes. You'll uncover persuasion techniques that most people don't even know exist and learn how to build your influence by applying these principles to any number of business interactions, from managing, mentoring and negotiating to conversations, writing and presentations.
