

Your employee is interested in learning new skills with AMA. Beyond helping you both achieve your goals, here's why that's an excellent idea.

AMA Seminars offer your employee:

- **Extensive practice in a supportive environment.** You really can't learn new skills from an app. You need to experience it, practice it, and get personal attention to the details that make a difference. There is simply no substitute for learning by doing.
- **Feedback from experts.** Our instructors are not professors—they are practitioners in the field, focused on what works now in the real world. Participants agree instructors make a difference and have rated our faculty 4.83 out of 5 stars. What's more, your employee will be learning alongside peers from other organizations gaining insight and knowledge from other industries and expanding their professional network.
- **Tools and techniques designed to improve performance.** Our courses are instructionally designed to make a difference in performance, which is why 99% of participants report they are using what they learned back on the job after taking one of our courses.
- **An Experience.** Yes, we know two or three days seems like a lot. But dedicating that time to truly master new skills is worth the time and money. And we're not just saying that--our customers agree: 98% of participants would come back for another course.

Still feel like you can't spare your employee for a training session?
Take a look at [our live online courses](#) which minimize time away from work.

Either way, remember that we don't lecture—we accelerate performance.

Fundamentals of Cost Accounting

Know where every dollar goes—learn how to implement an effective cost accounting system

Use cost accounting to effectively control operations! Top management is keeping a sharp eye on where every dollar goes. This seminar provides you with all the tools and information to put the best practices of cost accounting to work for your company.

How You Will Benefit

- Apply cost accounting methods to identify profitable products and services
- Analyze reports to make sound pricing decisions
- Compare cost systems and choose the one that's right for your company
- Evaluate results against budgets with greater accuracy
- Use cost accounting methods to optimize the use of people, resources and materials

What You Will Cover

- Relating cost accounting to financial accounting and the planning and control process
- Budgets as a tool within both traditional and ABC cost systems
- Enhancing budgeting accuracy
- Product costing systems and accounting for overhead
- Activity-based costing for management control
- Standard costing and variance analysis
- Variance analysis for material, labor and overhead variances
- Requirements for establishing a direct costing system

Who Should Attend

Accountants, accounting managers, cost accountants, cost analysts, budget analysts, systems analysts, auditors and financial planners.
