

Your employee is interested in learning new skills with AMA. Beyond helping you both achieve your goals, here's why that's an excellent idea.

AMA Seminars offer your employee:

- **Extensive practice in a supportive environment.** You really can't learn new skills from an app. You need to experience it, practice it, and get personal attention to the details that make a difference. There is simply no substitute for learning by doing.
- **Feedback from experts.** Our instructors are not professors—they are practitioners in the field, focused on what works now in the real world. Participants agree instructors make a difference and have rated our faculty 4.83 out of 5 stars. What's more, your employee will be learning alongside peers from other organizations gaining insight and knowledge from other industries and expanding their professional network.
- **Tools and techniques designed to improve performance.** Our courses are instructionally designed to make a difference in performance, which is why 99% of participants report they are using what they learned back on the job after taking one of our courses.
- **An Experience.** Yes, we know two or three days seems like a lot. But dedicating that time to truly master new skills is worth the time and money. And we're not just saying that--our customers agree: 98% of participants would come back for another course.

Still feel like you can't spare your employee for a training session?
Take a look at [our live online courses](#) which minimize time away from work.

Either way, remember that we don't lecture—we accelerate performance.

Major IFRS and US GAAP Differences

Understand the critical differences between the requirements of US GAAP and IFRS

This two-day workshop, presented by our experienced, specialist instructors, provides a detailed comparison of the most significant technical differences between the requirements of US GAAP and IFRS. The program is built around the items that most commonly appear on the SEC Form 20-F reconciliation of IFRS to US GAAP, supplemented by the use of real-life examples and financial statements that illustrate and explain these technical differences. Participants are also brought up-to-date on IASB/FASB convergence projects and the prospects and timetable for full convergence of US GAAP with IFRS.

How You Will Benefit

- Understand the major technical differences between the requirements of US GAAP and IFRS
- Recognize and evaluate the potential impact of those differences
- Build on existing knowledge to plan for the implementation of IFRS convergence-related standards
- Appreciate the likely timescales for changes to be implemented

What You Will Cover

- IFRS / US GAAP Differences
- Conceptual framework
- Presentation of the financial statements and related disclosures
- Recognition and measurement requirements for assets and liabilities, including financial instruments
- Revenue recognition
- Accounting for business combinations, associates and joint ventures
- Convergence Issues
- Prospects and timetable for IFRS/US GAAP convergence
- IASB and FASB convergence projects

Who Should Attend

Anyone who is currently involved in the preparation, review or analysis of financial statements prepared under US GAAP
