Your employee is interested in learning new skills with AMA. Beyond helping you both achieve your goals, here’s why that’s an excellent idea.

**AMA Seminars offer your employee:**

- **Extensive practice in a supportive environment.** You really can’t learn new skills from an app. You need to experience it, practice it, and get personal attention to the details that make a difference. There is simply no substitute for learning by doing.

- **Feedback from experts.** Our instructors are not professors—they are practitioners in the field, focused on what works now in the real world. Participants agree instructors make a difference and have rated our faculty 4.83 out of 5 stars. What’s more, your employee will be learning alongside peers from other organizations gaining insight and knowledge from other industries and expanding their professional network.

- **Tools and techniques designed to improve performance.** Our courses are instructionally designed to make a difference in performance, which is why 99% of participants report they are using what they learned back on the job after taking one of our courses.

- **An Experience.** Yes, we know two or three days seems like a lot. But dedicating that time to truly master new skills is worth the time and money. And we’re not just saying that—our customers agree: 98% of participants would come back for another course.

Still feel like you can’t spare your employee for a training session? Take a look at our live online courses which minimize time away from work.

Either way, remember that we don’t lecture—we accelerate performance.
